COMMERCIAL

To the commercial students are available business courses such as typewriting, business mathematics, and business law. These subjects train students to someday secure worthwhile positions in business.

The business world is a competitive place, and the students planning business careers can get a good background to succeed in the business of tomorrow.

BOOKKEEPING — "Class, this is very simple; do eighty questions for today."

ECONOMICS — "(Class, I consider this to be a very good buy!"

TYPING — "Barbara tries to concentrate in typing class, but something else is on her mind."

TRIGONOMETRY — "Is he speaking Chinese or Greek?"

MATH — "Don't be discouraged, Mr. Strouble, the first hundred years are the hardest."

GEOMETRY — Mr. Moran rips into a delightful geometry problem.

MATHEMATICS

Since mathematics is one of the oldest academic subjects, it is also the most helpful and interesting a person can take — not only because it enriches him for the future and prepares him for college, but it builds a better foundation for further study in other fields.

ALGEBRA II — Mr. Mortimer tries to explain the graphing of intersecting lines. Carol is looking but not listening.

FINE and PRACTICAL ARTS

The Fine Arts in the high school comprise Art and Music and the Practical Arts include Homemaking, Industrial Arts and Vocational Agriculture.

The program in both areas lays stress on doing and creating.

ART — "Let's put a teacher in a real one!"

HOME ECONOMICS — "This is the way we iron our clothes."

MUSIC — "That's right! All together now."

Show are some of the boys
 at work in Industrial Arts
 and Vocational Agriculture.

SCIENCE

The science program has been greatly expanded at Liberty High School. Courses such as General Science and Biology are offered to junior high students. Earth Science, Physics, and Chemistry are available to academic students in these final years of scientific development.

To be skillful in these courses, it is necessary to be alert and open-minded.

Since we are living in a constantly changing space age, our keen interest in science must continue if we are to be able to meet the challenge ahead of us.

BIOLOGY — "Work or else!"

PHYSICS — "If I hold my finger on the end, it will balance."

EARTH SCIENCE — "You tell them, Bill, You're bigger; they'll listen to you."

COMPTON — "What do you think about the new one of the new one?"

8th ENGLISH - "Reading bedtime stories, Mrs. Shields?"

ENGLISH

The English department is one of the most important departments in our school's curriculum. Without the ability to speak and write adequately, chances of success are considerably lowered. People who can handle the English language well are always in demand for today's exciting jobs.

Literature and grammar are offered at various levels. Vocabulary study is important for comprehensive reading and conversation.

The experience gained in writing a composition paper is invaluable for those who plan to go to college.

10th ENGLISH - "Has the jury reached their verdict?"

11th ENGLISH - "Come now! Put some emphasis on it."

6th HISTORY - "That's right, though! You'd better believe it."

HISTORY

Our social studies include the happenings of today as well as yesterday. Our ever changing world situations give us a very necessary reason for studying history.

It enables us not to see our world in a better light, but to better understand how yesterday's happenings affect today's events. A knowledge of the past always helps in understanding the present age and shedding some light on the future.

7th HISTORY - "And if Master Bittner doesn't behave, this will be his destination."

10th HISTORY - "Mrs. Shields, someone's at the door."

HEALTH — "Any comments, Penny?"

HEALTH and DRIVER EDUCATION

The object of our school education is not only to develop a sound mind but also a healthy body. Through the physical education program, we are provided much needed exercise that helps to keep us physically fit.

Responsibility and safety are key words for modern driving. Through driver education we achieve good driving habits which are a necessity for safety on our nation's highways.

"The beginning of the end."

"Have a little self-confidence, Georgia!"

13th FRENCH - "What's come over the junior class. They're not working!"

FRENCH

The modern language program offers a four year course in French. The most modern course in conversational French has been introduced and plans are being made to install a language laboratory to implement the programs.

LANGUAGE LAB. - "Pilot to central tower, repeat..."

10th FRENCH - "Diane, je voudrais te presenter Leonard."

12th FRENCH - "Speak a little louder, Miller, you're not getting it across."

OUR TEACHERS

Heading our list, and making us mind,
Is Mr. Anderson, stern, but kind,
English and Lit are taught by Mr. Porter.
His excuses are short, his hair even shorter.

To Earl Bliss, coach of our teams,
Victories are few, or so it seems.
Mrs. Page knows her cooking and sewing,
While Miss Barndt keeps the band going.

Mr. Booth, with gym classes galore,
Will see the crazy seniors no more.
Mr. Smith, jolly as ever,
Teaches P.O.D. with valiant endeavor.

Mr. Castle, busier than ever before,
Teaches Science, plus much more.
The vocational subjects at which the boys are tops,
Are taught by Mr. Hitchcock, "ag" and Mr. Strouble, "Shop".

Mrs. Botsford, uses French records and tapes
While Mrs. Shields works on verbs to conjugate.
Mr. Botsford, with his many math classes,
Is a friend to all the lads and lasses.

Mr. Weaner really looks alive
When his students are learning to drive.
Mrs. Besanceney, always laughing and jolly,
As Special Ed. teacher, she's great-by-golly!

The clever art work that we see
Has been taught by Mrs. Wetherbee.
Mrs. Bittner, our office secretary,
Types the yearbook, and keeps us merry.

With our faculty larger than before,
We will-well, we should! Learn more.
And all who graduate from L.B.S.
Will find these friends to be some of their best.

- Carolyn Parker

AROUND OUR SCHOOL

"Now, Rita, a hard-working man deserves a little rest!"

"Height isn't everything, Smarty."

"Ah, come on, Mr. Botsford - finders keepers."

"Who wants to grow up? Teachers bug me anyway."

"Please, Mr. Hitchcock; I was only _____, my, that smart."

"Sometimes I wonder if it's worth it all!"

"Wait a minute, Mr. Plank. That opens the door."

"So this is where you study!"

"Thanks a lot, but I still prefer brunettes."

"Listen, Lois, they're only size 8!"

"Do you really have time to take up photography, Zane?"

"No thanks, Joanne. You'd better finish the last of the candy."
